ANONYMOUS SHADOW RATED IT 4 STARS ON GOODREADS

REVIEW

"If you want to get a look in the mind of a talking cat and go a pawsome adventure, this book is for you. It was such a fun read and I love spending some time with Sir Kipling, who is one of my favorite side characters from this series. The author managed to capture his snarky personality perfectly even from his point of view. The adventure was fun to read about and also contained some danger and I liked how cat-like, smart and capable Sir Kipling was."
